学习效果 (Student' s Achievement):

They successfully learned all the numbers and how to use numbers to make a phone call. Most of student can speak and write down the numbers until one hundred and fifty, all of students can both write and speak till one hundred. Base on the exam grade, most of students did really good job. But some of them still need to practice more in class and at home. In the following months, we will learn a little faster than the first month, and do practice more in class.

教师点评 (Teachers' Comment):

A lot of students are very active in class to respond and to participate in activities, but since Mandarin is still a "strange" sound to them, they loose attention easily. Also, since it' s the first month of school, they started to be closer to their classmates, meaning they sometimes get too excited sharing stories with their friends before class starts. For the exam, students who got a "good job" stamp means excellent job! And students who got a blue stamp means good job! Congratulations! Students who did not get any stamp means you need to work hander next month, so...try hander, and you will be the best in the future.
