iPad 上的中文游戏 iPad Games in Chinese

学习效果（Student's Achievement）：

- 1、 Most students start writing characters. They will write the characters correctly by observing.
- 2、 They could understand everything what we learn in the class. They could answer everything what the teacher ask.
- 3、 All the students could do the practice in the book independently.

教师点评（Teachers' Comment）：

- 1、 This month, all the students are doing great job in the class. They do participate in the class.
- 2、 In Chinese, the pattern of counting thing is like this way, **Numerals** + **Measure word** + **Noun**. For example, 一个妹妹（one sister）. So far, we just use measure word to count family members, which could be easily described by the measure word “个”. When we try to count animals or fruit, the measure word would be much more complicated.
- 3、 According to the textbook, I let all the students start writing the characters by observing. They will learn things by observing.

下月计划（Plan For Next Month）：

- 1、 Review what we've learnt and learn more poems.
- 2、 Get familiar with strokes and start to write basic characters in the right order.
- 3、 Practice the grammar structure “I like... and I don't like...” Learn to say more complicated sentences, like “I'm in first grade”, “I like to do ...” etc.
- 4、 Review colors, animals, shapes and fruit. Writing the characters.
